

The Theory of Knowledge in Japanese Schools: Reflections from the First Article One IB School in Japan

■ 講演の概要 ■

The presentation will start with a description of what an International Baccalaureate (IB) education is and how the program was implemented at Katoh Gakuen, the first Article One high school to be authorized by the IB in Japan nearly 20 years ago. The focus of the presentation will be on the Diploma Programme (DP) which covers the last two years of high school and how the Theory of Knowledge (TOK) course is taught at the school.
